CALL FOR PAPER

2010 International Symposium on Antennas and Propagation (ISAP 2010), organized by the University of Macau and the State Key Laboratory of Millimeter Waves at the City University of Hong Kong and technically cosponsored by the IEICE Communication Society, IEEE AP-S and IEEE AP/MTT Chapter (Hong Kong), will be held in Macao from 23 to 26 November 2010. This event features technical sessions, poster sessions and exhibitions to provide a forum for the exchange of information on state-of-the-art research in all the related topics as well as aims to continue and accelerate the momentum of researching in antenna and propagation areas. The participants will also gain a deeper understanding on the current research focus of the related fields.

SUGGESTED TOPICS

A. Antennas and Related Topics: Microstrip and Printed Antennas · Active and integrated Antennas · Array Antennas, Phased Arrays and Feeding Circuits · Small Antennas · Adaptive and Smart Antennas · Multiband/wideband Antennas · Slot Antennas · Millimeter Wave and Sub-Millimeter Wave Antennas · Reflector/Lens Antennas and Feeds · Optical Technology in Antennas · Mobile and Base Station Antennas · Antenna Measurements · Others

B. Propagation and Related Topics: Mobile and Indoor Propagations · Mobile Channel Characterization and Modeling · Millimeter and Optical Wave Propagations · Earth-Space and Terrestrial Propagations · Radio Astronomy · Remote Sensing · SAR Polarimetry and Interferometry · Ionospheric Propagation · Others

C. Electromagnetic Wave Theory and Other Related Topics: Complex/Artificial media and Metamaterials · Computational Electromagnetics · Theoretical Electromagnetics and Analytical Methods · High-Frequency Techniques · Inverse Problems · Random Media and Rough Surfaces · Scattering and Diffraction · Waveguiding Structures · Periodic and Band-Gap Structures · Time Domain Techniques · Others

D. Systems and Other Related Topics: Biological Effects and Medical Applications · High Power Microwave Applications · Advanced Materials for EM Applications · UWB and Impulse Radio · Ubiquitous Network Systems · Satellite Communication Systems · Radio Technologies for Intelligent Transport Systems · Subsurface Sensing · EMC/EMI Simulations & Measurements · MIMO Radio Channels & Mobile Radio Communication Systems · Others

PAPER SUBMISSION

The paper should be typed on A4-size paper with 25 mm margin on all sides. Fit all the text, figures, and references within the limit of 4 pages. Note that no page number should be printed. The first page should include the paper title, the name and the complete mailing address of all authors, and the e-mail address of the corresponding author. Instructions on paper preparation and online paper submission are available at www.isap2010.org.
